+

=

1. OBTAIN PLASTIC CUP. BUY AN ICED COFFEE AT YOUR FAVORITE COFFEE SHOP. CAN'T BUY A COFFEE? LOCATE A PLASTIC COFFEE CUP IN A RECYCLING BIN (THE PLASTIC ONES HOLD UP BEST TO MOISTURE). USING A SHARP OBJECT, MAKE TWO HOLES IN THE SIDE OF THE CUP NEAR THE TOP RIM. NO LID NECESSARY. MAKE A SINGLE HOLE IN THE BOTTOM OF THE CUP. CUSTOMIZE YOUR CUP AS YOU WISH. PAINT, TAPE, MULTIPLE CUPS TIED TOGETHER...ETC.

2. ADD SOIL. FILL CUP TWO-THIRDS WITH SOIL; USE COFFEE GROUNDS FROM FAVORITE COFFEE SHOP FOR FERTILIZER AS NEEDED.

3. PLANT SEEDS IN SOIL. PURCHASE SEEDS AT YOUR LOCAL NURSERY OR GATHER SEEDS FROM PUBLIC PLANTS, OR THROUGH FUTURE SEED STEWARDSHIP PROGRAMS AT LOCAL SHELTERS. PLANT SAID SEED IN THE CUP OF SOIL.

4. ADD WATER. USE A WATER SOURCE WHETHER IT IS YOUR BATHROOM SINK OR A LEAKY SPOUT ON THE SIDE OF A BUILDING. TAKE ADVANTAGE OF RAINY DAYS!

5. HANG YOUR PLANT IN SUNSHINE/DAYLIGHT. ATTACH A STRING, TWINE, CABLE TIE, OR CHAIN TO THE HOLES NEAR THE RIM OF YOUR CUP. HANG YOUR CUP FROM AN OPEN STRUCTURE IN THE ALLEYS OR WHEREVER YOU MAY BE AT THE TIME. BALCONY RAILINGS, HANDLES ON A CART, AS LONG AS YOU HAVE ACCESS TO SUNLIGHT, YOUR PLANT WILL GROW.

6. ENJOY YOUR PLANT.
